## Welcome to Brabant, Vincent's homeland

Vincent van Gogh was born in 1853 in Noord Brabant (the Netherlands). He lived and worked there for most of his life. This is where his love of nature started and where he developed his unique talent. Visit the heritage locations and follow in Vincent's footsteps from his childhood days in Zundert, the start of his career in Etten-Leur, his drawing lessons in Tilburg and his first masterpiece in Nuenen. With no fewer than 39 Van Gogh Monuments and original works in the Noordbrabants Museum, a visit to Brabant will bring you closer to Van Gogh than ever.
